DETAILED ACTION

This is in response to an Amendment file 09/23/2005.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Santelli et al. (U.S. 6,336,462) in view of Hirzel (U.S. 5,186,190).

Santelli et al discloses the claimed invention in figures 1-5, where Santelli et al clearly discloses the claimed invention, a plurality of templates (20,30 which includes 40) having openings (22,32), wherein said templates configured of substrate portion (42) and a protective portion (col. 9, lines12-22) being releasably coupled to said substrate portion (42) to protects said substrate portion (42) until the template is used. However, Santelli et al does not disclose the shape of the outer perimeter edge (at 12,14,20,30) substantially corresponds to a shape of inner perimeter edge (at outer edge of openings (22,32)).

Hirzel teaches in figures 1 and 2, that it is known in the art to have the shape of the outer perimeter edge (11,12) substantially corresponds to a shape of inner perimeter edge (32,31).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the Santelli et al's eyebrow shaping device with the outer perimeter edge substantially corresponds to a shape of inner perimeter edge as taught by Hirzel so that it can be used as a eyeline or eye shadow guide.

Response to Arguments

3. Applicant's arguments filed 09/23/2005 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1 and 8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
